

An introduction to architectural visualisation.  
Loft conversions and extensions.

## Architecture Visualisation

Alongside our architectural services, we now provide realistic images of what your future project will look like.

## The Process

We discuss exactly what you wish to achieve so that we can model what you are looking for.

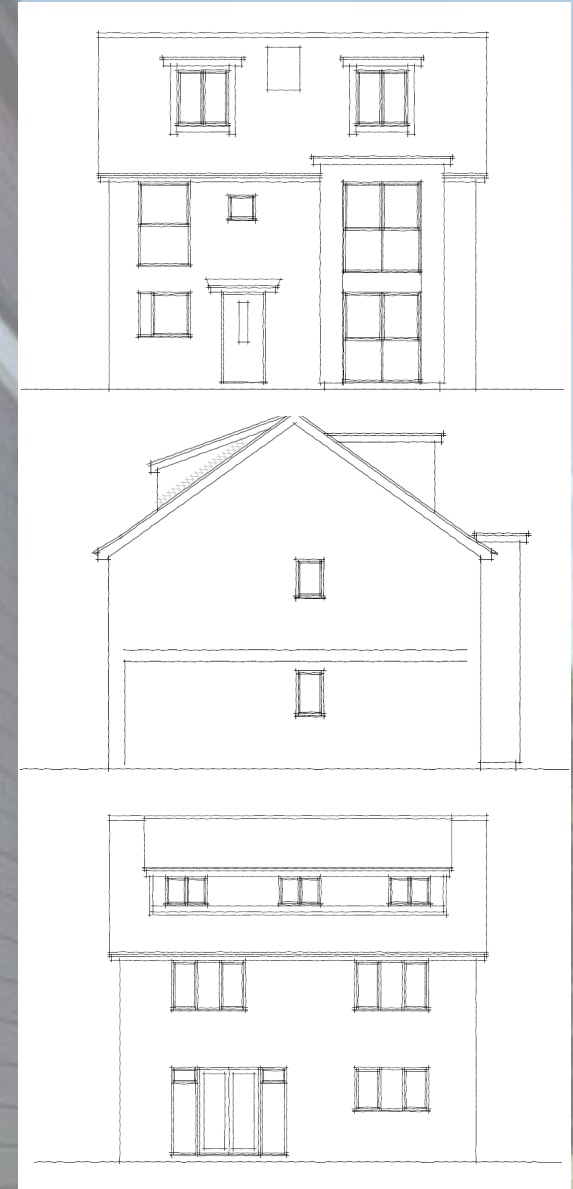

If we haven't already prepared the architectural design drawings for your new house then we would need you to send your 2D plans to us. We would then prepare a 3D model and apply the agreed finishes, fittings etc.

# Existing

# Proposed

## Case Study One

Proposed loft conversion incorporating drawing including front and rear dormers .

## What we offer

We will provide you with high quality images of your project. These can include;

- External views
- Internal views
- 360 Panoramas
  - Videos
